

## FOR EVERYDAY HIGHWAY DRIVING

### LONG LASTING COMFORT, EVERYWHERE YOU GO.

The Geolandar H/T G056 is Yokohama's highway terrain tyre developed for drivers of four-wheel drives and SUVs who spend limited time off-road and are looking for a quiet, comfortable ride with long tread life.

The Geolandar H/T G056 features a multi combination tyre compound, which includes Yokohama's patented Orange Oil Technology, designed to enhance wet traction, provide better fuel efficiency and improve tread life by up to 21%.\*

**YOKOHAMA**

4 Main Zigzag Grooves

Multiple Lug Grooves

Adaptive Shoulder Blocks

3D Sipes

#### Technical Features

5 pitch variation

4 main Zigzag grooves

Multiple lug grooves

Adaptive shoulder blocks

3D sipes

Multi combination compound

Orange Oil Technology

#### Benefits

Reduces driving noise

Improves traction and provides excellent hydroplaning resistance. It also offers deeper tread depth for better wear performance

Generates high traction on wet road surfaces

Reduces tread noise and promotes even wear

Used within the tread block to support each other and reduce deformation

State-of-the-art compound engineered with Orange Oil extends tread life while providing outstanding traction

Fuel efficiency, long lasting, wet grip performance

\*In comparison to its predecessor, the Geolandar H/T-S G051.

# ROAD HAZARD PROTECTION

The Yokohama Road Hazard Protection covers drivers from unexpected road hazard damage both on and off the road. So if the tyres are damaged they'll be repaired or replaced for free\*.

\*Some age and wear conditions apply.

## What is Road Hazard Protection?

The Yokohama Road Hazard Protection covers drivers from unexpected road hazard damage both on and off the road. This includes:

- Staking
- Impact Fractures
- Cuts
- Accidental Kerb Damage

## How much does it cost?

The Yokohama Road Hazard Warranty is offered FREE with the purchase of 2 or more Yokohama Geolandar tyres from the following list:

- Geolandar SUV HT Eco (G055)
- Geolandar HTS (G051)
- Geolandar HT (G056)
- Geolandar ATS (G012)

## How does it work?

The certificate provides free puncture repair where there is at least 50% of the original tread remaining and wear-based replacement on non-repairable tyres as follows:

- If the tyre has greater than 75% of the original tread remaining Yokohama will replace the tyre free of charge.
- If the tyre has less than 75% but greater than 50% of the original tread remaining Yokohama will replace the tyre at a pro-rata cost. The driver only has to pay for the tread already worn off the tyre as a percentage of the retail purchase price.
- If there is less than 50% of the original tread remaining the tyre will no longer be covered.

## Where am I covered?

The Road Hazard Certificate gives you Australia-wide protection both on and off the road.
